

Product Specification

Model No. STM7000D

The Rearview Systems STM7000D monitor features a high resolution 7.0" color display with a sunshield and a four point AMP's monitor mount. It is designed for vehicles with larger cabs. This monitor can accommodate up to three cameras and one A/V video input/output. The over-sized rubber control buttons make it easy for adjustments or programming changes, even with gloves on. The digital LED back-lit display features a bright crystal clear 337,000 pixel image. A unique feature includes our patent pending electronic adjustable rear stop line and a programmable screen brightness dimmer. This unit is ideal for truck fleets. This monitor includes: a power harness, sun visor and AMP's Mount and is protected by our Standard 5 Year Warranty.

STM-7000D

STM-7000D
with Sunshield and AMPS mount.
